## Eco Line magnetic lock 300 Kgf, monitored, surface mount

### Description

---

Eco Line magnetic lock 300 kgs, monitored. Surface mounting.

### Application

---

Medium security applications for internal and external doors. To be mounted inside external doors.

### Reliable Security

---

This state of the art electro-magnetic locking device provides positive, instantaneous door control. Filler plates, angle brackets, and other mounting adapters are available to satisfy a wide range of door and frame types and conditions.

### Safe operation

---

Our locking devices are inherently fail-safe, releasing instantly upon command or loss of power. With no moving parts to wear, stick or bind; no mechanical linkages to bend or break; and no bolt travel time or misalignment to raise concern, both unlocking and locking are always accomplished with ease and efficiency. As those electromagnetic locking devices function independently of any mechanical type locks, magnetic locks will not jeopardize the fire door rating of an opening.
