

MADA T24 GRID SUSPENSION SYSTEM

Technical Data Sheet

TDS-CT-R02-Rev2 T24 - November 2023

Product Description

The Mada T24 Grid Suspension System is designed and manufactured to ensure that all ceiling designs are structurally and aesthetically sound. Installation is quick and simple thanks to the smart clip-in design.

Field of Application

- Residential buildings.
- Commercial buildings.
- Hospitals.
- Airports.
- Educational settings.
- Light industrial and manufacturing projects.

Benefits

- Hot dip galvanized 0.32mm thick body with polyester coated 0.27mm thick PPGI capping to provide protection against corrosion.
- Supports heavy tiles and backings, light fixtures and access panels.
- Exposed surface chemically cleaned; galvanized steel capping painted with baked polyester paint.
